

Symposium on Computer Animation 2010

**2-4 July 2010
Madrid, Spain**

The ACM SIGGRAPH / Eurographics Symposium on Computer Animation (SCA) is the premier forum for innovations in the software and technology of computer animation. It unites researchers and practitioners working on all aspects of time-based phenomena. Our focused, intimate gathering, with single track program and emphasis on community interaction, makes SCA the best venue to exchange research results, get inspired, and set up collaborations. The 2010 conference is the ninth international symposium in the series.

Sponsorship

Industry sponsor participation plays an important role in bringing key research to the international academic community. It helps keep conference fees accessible to all members, especially students. It is an opportunity for industry to connect with the brightest new & future graduates that will be attending and presenting at this conference.
